Nguyen Vu Luan, Web Developer

Binh Tan, Ho Chi Minh City, Ho Chi Minh, Viet Nam, 0369899367, kaidev.contact@gmail.com

---

Date of birth   16/02/1995

PROFILE

Web Developer with 4 years of experience specializing in front-end development using ReactJS, JavaScript, and TypeScript. Skilled in building responsive, user-friendly interfaces, optimizing performance, and managing state with Redux Toolkit. Hands-on experience in back-end development with Node.js and NestJS. Proficient in API integration, React Query, and Material UI. Passionate about continuous learning and contributing to impactful full-stack projects.

EMPLOYMENT HISTORY

Feb 2023 — Jan 2025

Web Developer, Brickmate Group VN
Ho Chi Minh

In the role of Web Developer at Brickmate Group VN, a strong emphasis was placed on creating and maintaining dynamic web applications that enhance user engagement and streamline business processes. Collaborating closely with design and product teams facilitated the development of responsive interfaces that cater to various customer needs. Additionally, I contributed to backend development, working on API integration and ensuring seamless communication between the front-end and back-end systems to improve overall application performance and functionality.

Responsibilities:

- Developed and maintained dynamic web applications to improve user engagement and business processes.
- Collaborated with design and product teams to create responsive interfaces.
- Built interactive components using JavaScript, ReactJS, and TypeScript.
- Integrated APIs to enhance functionality and ensure smooth data flow.
- Participated in code reviews and contributed to coding standards.

Tech Stack:

- Frontend: ReactJS, TypeScript, JavaScript, React Query, Redux Toolkit, Marterial UI, NodeJS, Naver Cloud, Naver Map, Google Map, AWS, Eform Sign, NestJS.
- Tools: Jira, Figma, TypeORM.

Jan 2021 — Jan 2023

Web Developer, SCB Bank
Ho Chi Minh

As a Web Developer at SCB Bank, the focus was on developing secure and efficient banking applications aimed at improving user satisfaction and operational efficiency. The contributions included collaborating with various stakeholders to ensure that the applications met regulatory standards while providing excellent user experience.

Responsibilities:

- Developed secure and efficient banking applications to improve user satisfaction and operational efficiency.
- Collaborated with stakeholders to meet regulatory standards while ensuring a seamless user experience.
- Built and optimized web applications using JavaScript and related frameworks.
- Integrated security measures to protect sensitive user data.
- Provided technical support and troubleshooting for ongoing projects.
- Created user documentation and training materials for end-users.

Tech Stack:

- Frontend: ReactJS, Javascript, Typescript, MUI, Redux, JWT, S3 Cloud.
- Tools: Jira, Zepplin.

SKILLS

ReactJS	Jira
JavaScript	Redux
TypeScript	API Integration
ExpressJS	Material UI, Shadcn, Tailwind
Git
